EXAMINER'S COMMENTS

Request for Continued Examination

1. The request filed on 5/13/2005 for a Continued Examination (RCE) under 37 CFR 1.114 based on parent Application No. 10/626,506 is acceptable and a CPA has been established. An action on the CPA is attached.

Response to Arguments

2. Applicant's arguments filed 5/13/2005 have been fully considered and are persuasive.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious a method or apparatus for banding a plurality of syringe barrels in which a transfer device transfers a plurality of syringes which are held in a predetermined orientation and spaced relationship and banded on opposite sides with a first and second web of material that is simultaneously applied to both sides.

The most pertinent prior art, OSBORNE, discloses strips of syringes in a bandolier format but does not disclose the method or apparatus for banding them, especially grouping and banding them with two webs simultaneously. POSGE groups articles together, but does not

Art Unit: 3721

maintain them in a predetermined orientation or band them together: the articles are placed loosely into containers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
